Ashish Rawat

Mobile Developer

Experienced Mobile App Developer with a 5+ years track record in creating high-performing iOS and Android applications. Proficient in UI/UX design, API integrations, and performance optimization. Proven success in healthcare, fintech, and e-commerce sectors. Passionate about leveraging emerging technologies like Machine Learning and staying current with industry trends.

Professional Experience

Experience Engineer L2   04/2021-Present
Publicis Sapient   Noida, India

- As Android Track Lead for RHS Grow, developed features such as plant capture, gallery, and notes; a paywall via RevenueCat integration; Dot Digital Push Notification SDK; and a chatbot. Utilised Content Square analytics for customer interaction insights.
- Contributed to full-cycle development of Abu Dhabi neobank app, Wio, by creating an intuitive user experience covering onboarding, authentication, invoicing, and money-saving features and used Firebase Analytics for personalised financial insights.

Mobile Application Developer   06/2020-03/2021
Codejek Technologies   Bangalore, India

- Led the end-to-end development of two interconnected Health Management apps, Numan Health for patients and Numan for doctors, for a startup. These apps promoted user well-being by enabling tracking of health metrics, facilitating doctor-patient communication via video calls or chat using agora, scheduling appointments, and recommending medicines.

Mobile Application Developer   01/2019-06/2020
Aeologic Technologies   Noida, India

- Spearheaded the development of Super Pay (Chinta Money), a multi-functional UPI payment app with budgeting and investment features.
- Developed OldPazaar, a robust e-commerce platform for buying and selling used items within the Arabic marketplace in Turkey.
- Designed and implemented a secure and user-friendly internet banking app for The Khattri Co-operative Bank, streamlining financial transactions and enhancing customer experience.
- Built Healum and You&Type 2, an AI-powered patient management system for empowering healthcare providers to deliver personalised care and remotely manage patients' health

Skills
